CentriPro

TG Series

Glass Lined Hydro-Pneumatic Tanks

FEATURES

- **1 1/4" NPT Spud:** Accommodates motor mount or retention tank connection.
- **1/4" NPT Spud:** Properly located for a pressure switch or pressure gauge.
- **Full-Size Connections:** 1 1/4" connections at all needed locations.
- **Designer Tan Finish:** An attractive addition to any home and provides positive protection against corrosion.
- Tanks are designed for installation indoors or where they are protected from rain, irrigation overspray, salt air and other corrosive environments. Always protect tanks from freezing.
- **Rolled-Steel Shell:** Our strongest tank design.
- **Glass Lined Interior (see below):** Proven protection against corrosive attack.
- **Tanks have a 3-year limited warranty. See instruction manual for complete warranty details.**

ITT

CENTRIPRO Residential Water Systems

SPECIFICATIONS

- Rolled-steel construction.
- Fused glass lining.
- Maximum working pressure: 75 PSIG.
- These tanks are designed and intended for cold (ambient temperature) water storage only.

PROTECTIVE GLASS LINING

The permanently-fused glass lining used on our TG pump tanks is the most effective way to protect a steel tank from the damaging effects of corrosion and/or electrolysis.

Permanent glass lining, rolled-steel construction, precision welding and 100% testing make every TG tank "a tank you can trust".

VOLUMES, DIMENSIONS AND WEIGHTS

TG Series Glass Lined Tanks

Model / Order No.	Volume (Gallons)	Dimensions in Inches						Shipping Wt. (lbs.)
		A	B	C	D	E	F	
TG42	42	51 1/4	23 3/8	16	6 3/8	4 1/8	6	77
TG42S	42	35 7/8	16 3/8	20				79
TG82	82	62 1/4	29 3/8	20				120
TG120	120	62 1/2	29 3/8	24				160

- 1 1/4" NPT spud in head for alternate motor mount or retention tank connection.
- All tapping 1 1/4" water connections.
- 1/4" pressure switch tapping on all models.
